Keleher (nee Barriett), dear father of Tancoa and Ruth Keleher, and sen of Mr. od Mrs. J. Keleher, and brother of John Tim F. Pennis and Nora Keleher, of Selalia, Mo. and son-kellaw of Mr. and Mrs. batriok Farrett. Funeral from family residence, No. 207 Mansester avenue, on Monday morning. November at \$30 o'clock, to St. Malachy's Church,

ence to Calvary Cemetery. Geneva, N. T., Denver, Colo., and Sedalla.

SECRETARY TAFT IN SPEECH BEFORE ST.LOUIS COMMERCIAL CLUB OUTLINES CANAL POLICY

Continued from Page One.

progress has been made since then. That which was done in a year under Mr. Wallace and the old commission mems less than what has been done under Mr. Stones and Mr. Stevens and the new commission in three months but, in the nature of things, in the early days of a great commission like the human machinery for building the canal progress toward smooth coordination and satisfactory results is slow. The Canal Commission has its offices in one for the canal progress toward smooth coordination and satisfactory results is slow. The Canal Commission has its offices in one for the canal progress toward smooth coordination and satisfactory results is slow. Important Announcement to Parents Regarding School Children's Eyes

Dr. Johnston of Washington, D. C., enumerates a large number of cases of the effect of school life on the eyesight, the frequency of headaches and resulting sleeplessness, affecting in some instances from thirty-eight per cent to forty-eight per cent of the children, and he instances the experiences of the Cleveland Public High School, where twenty-five per cent of the girls and eighteen per cent of the boys had been compelled to withdraw in one year for various reasons, mostly on account of bad health, chiefly due to eye-strain.

Dr. Cronin, Chief of the Division of School Inspection of the New York Department of Health, reports the examination of 7,166 school children in New York City in 1905, showing a total of 2,374, more than thirty-three per cent, who were suffering from defective eyesight, interfering with the pursuit of

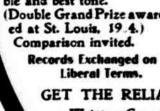

Dr. Gould of Philadelphia writes: "The greater the number of school hours demanded by a nation of the children, the greater is the number of child-suicides, and especially where, as in Saxony, the correction by glasses of the small optical errors upon which the troubles of eve-strain chiefly de-

It is an absurdly low estimate to place the proportion of the seventeen million of American School children, students, etc., whose characters and health are being injured, or positively ruined, by eye-strain at ten per cent. Myopia increases with each added year of school study, and Myopia usually means the eyeball stretching from lack of proper glasses. The "nervous," the "backward." the "stupid" and "unhealthy" pupil is usually so from eye-strain. The State has no right to demand that every child should attend school without also stipulating that its eyes shall be made capable for study.

A. S. ALOE-COMPANY 513 OLIVE STREET PRESCRIPTION OPTICIANS

You ALWAYS pay for what you get (one way or another). We do not give goods away, but sell the Columbia, the best talking machine made, on easy terms to reliable people.

Comparison invited.

We furnish highclass operatic music, also all the popular

The new Lyric Reproducer Cylinder Grapho-phones (Grand Prise, St. Louis, 1904), using our new six-inch Cylinder Records, are the ones we rec-

You should examine these machines and hear them; they are entirely new and are sold EX-CLUSIVELY by us,

\$10 to \$50

GET THE RELIABLE COLUMBIA-It is the only one with which you receive a Written Guarantee; it is not a toy, but an entertainer and an educator.
